About me

I am passionate about the art of creating computer programs.

As you can see by looking at my experience, I worry much more about building a solid foundation of knowledge than work just with a particular language. I consider myself able to accept the challenge of working in any environment, language, database or platform.

Skill

CSharp

CSS

Design Patterns

Java

Javascript

Python

ReactJS

SQL
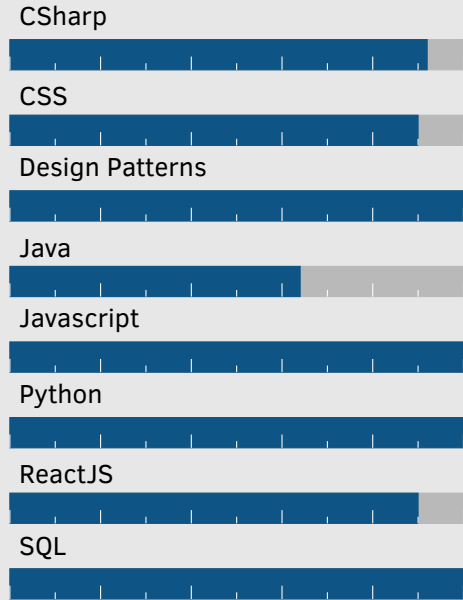

(*)[The skill scale is from 0 (Fundamental Awareness) to 5 (Expert).]

interests

Good challenges, which demand concentration and focus on quality deliveries.
